CBA Brothers Summer Skills Program for Middle School (2023): ELA & Math Mini-Courses for Middle School (Grades 6 - 9)

Dear Parents,

Congratulations on the successful completion of the 2022-23 school year. We hope that you and your families enjoy the summer break. In addition to getting a little rest and relaxation, however, summer is the perfect time to start preparing for the next school year.

With its sights already set on September, CBA is offering middle school students an opportunity to get a jump on the 2023-24 school year with the *Brothers Summer Skills Program*. The program is designed to help students, who attended middle school at CBA in 2022-23, review and practice a range of core skills necessary for success in Math and ELA. Participating students will also be able to preview some of the concepts and skills they will develop in Math and ELA next year. In addition, students who sign up for the program will receive support on any Math or ELA assignments that need to be completed by September.

The goal for the *Brothers Summer Skills Program* is to ensure that our middle school students are positioned for a strong start to the 2023-24 school year. Students may enroll in one or both of the week-long mini courses offered. Additional details about the program and how to register for the ELA and Math mini-courses are available below:
